# Hydrodermabrasion Facial

## What is Hydrodermabrasion?

Hydrodermabrasion is a revolutionary skincare treatment combining the exfoliating power of microdermabrasion, gentle acids, and a powerful infusion of antioxidants, peptides and hydrating serums. This unique treatment promotes a smoother, clearer, and more youthful complexion. The Hydrodermabrasion Facial is suitable for all skin types and addresses a variety of skin concerns, including:

- Congested Pores / Acne
- Fine Lines / Wrinkles
- Hyperpigmentation / Sun Damage / Melasma
- Redness / Ruddy Skin

Combine your Hydrodermabrasion treatment with the latest in skincare technology for exceptional results :

- Red Light Therapy- Addresses wrinkles, stretch marks, psoriasis, and scars. It can also help with signs of aging and sun damage.
- Blue Light Therapy- Clears acne breakouts, treats Rosacea, precancerous lesions and sun damage.
- Facial Sculptor- Deeply hydrates the skin with serum and sculpts facial features, thus enhancing healthy blood and lymphatic circulation.
- Ultrasound- Aides in the reduction of dark circles around the eyes, minimizes appearance of fine lines and wrinkles, and alleviates puffiness and dullness.
- Radiofrequency Skin Tightening -The gentle RF treatment is noninvasive helping to improve skin tone and elasticity, thus promoting enhanced cellular metabolism and new collagen production.

\*\*\*\*\*

*Rhiana DeGennaro has been my aesthetician for a number of years, I've enjoyed the results of her skills and treatments. However, after receiving the Platinum Hydrodermabrasion, my skin was glowing. It looked the best its ever looked.*

# Hydrodermabrasion Facial

## Signature

### Signature

Deep cleansing & exfoliation with gentle acids aid in a soft effective peel of dead skin cells & cell debris. A hydrotip is then used for extractions of blackheads and sebaceous filaments. Next is the infusion of rich anti-oxidants, peptides, and hyaluronic acid to leaving skin glowing and nourished.

### Anti-Aging - Lines Wrinkles

The **Anti-Aging** combines everything from the Signature plus an additional treatment booster--Chrono-Peptide from Circadia Skincare--to rebuild the dermal matrix resulting in a reduction in the appearance of fine lines and wrinkles. Next, Red light Therapy promotes blood flow and stimulates collagen production.

### Brightening - Pigmentation Discoloration

The **Brightening** combines everything from the Signature plus one additional serum booster--Brightalive from ZO Skin Health--to reduce the appearance of brown spots promoting more even skin tone. Red Light Therapy is then applied to promote collagen production, increase circulation, and fight signs of aging.

### Sensitive - Acne/Rosacea

The **Sensitive** combines everything from the Signature plus one additional treatment booster--Rozatrol from ZO Skin Health-- to reduce inflammation, redness, detoxify skin, and restore and heal the skin barrier. Next your aesthetician will select the proper light therapy based on your skin type.

### Platinum

The **Platinum** combines everything from the Signature plus one additional treatment booster (based on skin type), appropriate light therapy, Facial Sculptor for enhanced serum penetration, and ultrasound designed to address fine lines/wrinkles, puffiness and dark circles under eyes.

### Red Carpet

The **Red Carpet** combines the Signature with two additional treatment boosters (based on skin type), appropriate light therapy, Facial Sculptor, Ultrasound, and noninvasive Radiofrequency Skin Tightening designed to tighten skin & enhance collagen production.

## 3 Steps.

# The Best Skin Of Your Life

## CLEANSE + PEEL

Uncover a new layer of skin with gentle exfoliation and relaxing resurfacing.

## EXTRACT + HYDRATE

Remove debris from pores with painless suction. Nourish and quench with intense moisturizers.

## INFUSE + PROTECT

Infuse antioxidants & peptides that feed and protect your skin.
